

Board's Report

To
The Members,

The Directors are pleased to present the Seventeenth Annual Report on the business and operations of your Company and the Statements of Account for the year ended 31st March, 2020.

1. Financial Highlights

Figures in ₹ Lakh

| Particulars | FY 2020 | FY 2019 |
|---|-----------------|-----------------|
| a) Revenue from operations | 24,794.49 | 26,216.19 |
| b) Operating Expenditure | 18,875.25 | 19,373.70 |
| c) Operating Profit | 5,919.24 | 6,842.49 |
| d) Add: Other Income | 393.65 | 231.18 |
| e) Less: Finance Cost | 839.32 | 887.55 |
| f) Profit before depreciation and tax | 5,473.57 | 6,186.12 |
| g) Less: Depreciation/ Amortisation/Impairment | 453.64 | 458.09 |
| h) Profit Before Tax | 5,019.93 | 5,728.03 |
| i) Tax Expenses | 948.69 | 2,038.27 |
| j) Net Profit/ (Loss) after Tax | 4,071.24 | 3,689.76 |

2. Dividend

The directors did not recommend any dividend for FY 2019-20.

3. Transfer of unclaimed dividend to Investor Education and Protection Fund

There is no unclaimed dividend to be transferred to Investor Education and Protection Fund.

4. State of Company's Affairs

Financial Performance

During the year, your Company reported a Profit after Tax (PAT) of ₹ 4071.24 lakhs as against ₹ 3689.76 lakhs for the previous year. The Operating Revenue was at ₹ 24794.49

lakhs as against ₹ 26216.19 lakhs. The Earnings per share (EPS) has increased to ₹ 25.45 as against ₹ 23.06 in the previous year.

- **Business Environment**

India has an installed generation capacity of 368.8 Giga Watt (GW) as on 31st December, 2018. Generation capacity in the country has been steadily increasing, driven by fresh investments by private players. During 2019, 47% of the new capacity addition was in form of Solar Power Plants. However, the growth in demand is not in line with the capacity addition as a result the demand growth was less than that expected in 19th EPS. As per Central Electricity Authority's (CEA) Report, India's generating capacity comprises of 198 GW of coal based capacity, 25 GW of gas based capacity, 46 GW of hydro capacity, 87 GW of renewable capacity and about 7 GW of nuclear capacity. The total energy requirement for FY19 was ~1274 BUs and for FY20, it is estimated to be ~1308 BUs.

In order to meet the increasing demand of power and as per Draft National Electricity Plan, the capacity addition of 176.3 GW is targeted in 13th plan (2017 – 22). Out of 176.3 GW of capacity addition target, 48.26 GW will be added from Thermal, 6.82 GW will be added from Hydro, 3.30 GW from Nuclear, 27.72 GW from Wind and 87.71 GW will be added from solar generation. The National Electricity Plan estimates that approx. 22 GW of thermal capacity will retire by 2022 on account of strict environmental norms, it also estimates that the electricity demand shall grow at 6% till 2022.

The transmission sector plays an important role in the present power scenario which is characterized by geographical and seasonal diversity factors impacting demand and supply situation by facilitating transfer of power where required. Indian Power Transmission System is one of the largest integrated electricity transmission networks in the world. As per data available on Ministry of Power (MoP) website, Inter-State Transmission System (ISTS) in India is continuously expanding with current Inter – Regional Transmission capacity in excess of 90 GW. The National Transmission Grid System is divided into five regional grids i.e. North, East, West, South and the North-East. Traditionally there was not enough corridor for power flow from New Grid to Southern Region. However, due to commissioning of new power projects, the availability of power in Southern region has increased significantly. This has resulted in reduced variance in the power market rates in Southern Region as compared to rest of the country.

Power supply position in the country has improved during FY19. As per CEA, the gap between requirement and availability of energy in maintained at 0.5% during FY20. The

gap between peak demand and supply improved to 0.7% during FY20 as compared to 0.8% recorded during FY19.

In line with the revised Guidelines issued by Ministry of Power (MoP), total ~35 tenders were floated by the Distribution Companies (Discoms) for short term power purchase through competitive bidding on "DEEP" Portal followed by Reverse auction, totalling more than 62,000 Mega Watt (MW) of power.

In addition, 1 nos. of DISCOM had floated tenders for purchase of 50 MW of hydro power under Medium term Power Procurement guidelines through "DEEP" portal followed by Reverse Auction. While the bids have been opened the PPA has not been signed with the generators as the matter is pending for regulatory approval. Two rounds of Medium Term Tender for procurement of 2500 MW for a period of 3 years under Aggregation Model were conducted in FY-20. The first round conducted by NHPC Ltd. was cancelled due to high tariff discovered in the bid. The second round was conducted by PTC and a tariff of Rs 3.26/kWh was discovered in tender. The PPAs have not been signed yet.

The short term power prices of Day Ahead market have decreased by 22% in FY20 as compared to FY19. The major reason for decrease in the short term prices are lesser demand, increased hydro power generation, extended monsoon, increased availability of coal for power generation and other events such as economic slowdown, impact on industrial consumption & manufacturing, primarily due to COVID -19.

As per CERC Marketing Monitoring report, the Electricity traded in the short term power market during FY20 till Jan'20 was 108 Billion Units (BUs), it is estimated that ~138 BUs will be traded under short term during FY20. This will be ~11.06% of total generation. The volume traded through Bilateral stood at 6%, 4% through power exchanges and 2% through Deviation Settlement Mechanism (DSM). The volume traded in short term power market, has decreased by 5% in FY20 as compared to FY19.

The sector is currently facing several challenges such as

a. [Lower trading Margins](#)

The competition has grown fierce due to an increase in the number of Central Electricity Regulatory Commission (CERC) licensed traders and with the pressure of increasing market share. Due to this, trading margins are under pressure. New trading licensees are

aggressively trying to enter into the short term market with lower trading margin. The CERC has further made the regulations more stringent and have capped the chargeable trading margin to 2 paisa/unit, in case LC is not provided by the trader.

b. [Poor Financial health of DISCOMs](#)

Although several states have raised tariffs in the last few years, the financial condition of several distribution entities still remains a matter of concern. Improvement in financial health of DISCOMs would be crucial to power trading market development. With the implementation of Ujwal DISCOM Assurance Yojna (UDAY) Scheme, some of the DISCOMs' financial health have marginally improved. The MoP is in plans to float another ambitious scheme for Discoms revival called ADITYA, which envisages for milestone based disbursal of ₹ 2.86 trillion and aims to reduce the AT&C losses to below 12%. However, at present, procurement by DISCOMs on the Case I route is not progressing as envisaged, due to poor financial condition of DISCOMs.

c. [Lower PLF for thermal power plants](#)

Due to the advent of high installed RE capacity, the requirements from conventional power generators is falling. This implies that there is less off take by DISCOMs. However, the less off take does not impact the Fixed Cost payable by the DISCOMs. Therefore, the already debt-ridden DISCOMs are having to pay higher Fixed Costs, even for lesser power procured from Generators (Low PLF Generators) and hence, are now facing an even higher financial instability.

d. [Open access slow growth](#)

The unwillingness of DISCOMs to allow open access to its consumers, in spite of binding provisions in the Electricity Act, 2003, is acting as a major barrier to further growth and competition in the Power Trading sector. Growth in Open Access, is constrained because of risks due to transmission corridor availability, regulatory risks, restrictive open access regime being followed in various States and excessive levels of cross subsidy charge. Further, due to inherent price fluctuations in short term market, open access power purchase becomes unviable in some of the states intermittently.

During FY20, a promising focus on policy and regulatory reforms, and greater expansion of power markets has been observed. CERC & MoP came up with several pro-market policy

interventions which include notification of revised MOP guidelines on Cross-Border Trade in Electricity (CBTE), MoP's Notification for continuation of "Security Constrained Economic Dispatch", on account of its phenomenal results for decreasing the overall gen cost of the country, resolution of jurisdictional issues between SEBI and CERC for introduction of derivatives market.

The CERC is to roll out Real-time Market (RTM) with half hourly auctions on continuous basis from June'20. The adequate transmission capacity, conducive policies for growth in demand for power, proactive and efficient operations by PSOCO (load dispatcher) & other policy and regulatory initiatives by the regulator and ministry are expected to pave the way for increasing volume traded in power market.

- **Operations**

As the Company has created a renewable energy generation portfolio the operations section is divided into Trading Operation, Generation Operations and Value Added Services.

- a. **Trading Operation:**

Your Company is the first company to be granted a license by the CERC in June, 2004.

Your Company has traded 10155 MUs in FY20 as compared to 10422 MUs in the previous year. Your Company was ranked the third largest trader with a market share of 8.84% in FY20 amongst the top 11 traders.

Your Company has presence in Noida, Mumbai and Chennai and along with resident representatives in Hyderabad & Kolkata. The trading operations are carried out from the Control Room at its Noida office and functions on 24x7 on 365 days basis.

In line with the approach of focusing on retail portfolio, your Company has sold about 3396 MUs at Power Exchange, 2953 MUs under Short term Bilateral Trade and 3807 under Long Term Bilateral Trade. In cross border trade, your company sold 512.69 MUs.

- b. **Generation Operation:**

Your Company has set up renewable energy based generation projects in Tamil Nadu, Gujarat and Jharkhand. The update on generation operations is as follows:

A. 1.25 MW Sastra Solar Rooftop Project, Tamil Nadu

Your Company has set up a 1.25 MW Solar Rooftop Project in Shanmugha Arts, Science, Technology & Research Academy (SASTRA) University, Tamil Nadu. The project was commissioned on 15th March, 2015, and a Power Purchase Agreement (PPA) is entered into with SASTRA University for a period of 15 years.

During the year, the project generated 1.71 MUs (1.83 MUs in FY19) at a Plant Load Factor (PLF) of about 16%.

B. 4 MW Wind Project Rojmal District Gujarat

4 MW (2 x 2 MW) Wind Power Plant at Rojmal, District Botad, Gujarat was commissioned on 17th April, 2015. The power to be generated from the Project is tied up with Gujarat Urja Vikas Nigam limited (GUVNL) at a preferential tariff of ₹ 4.15/kWh for a period of 25 years.

During the year, the project generated 5.70 MUs (6.04 MUs in FY19) at a PLF of about 16%.

C. 3 MW Noamundi Solar Project, West Singhbhum District, Jharkhand

Your company has set up a 3 MW Solar Power Project at Noamundi, West Singhbhum District, Jharkhand. A PPA is entered into with Tata Steel for a period of 15 years. The project was commissioned on 23rd May 2017.

During the year, the project generated 4.23 MUs (4.44 MUs in FY19) at a PLF of about 16%.

c. Value Added Services

i. Open Access Services

Apart from other things postulated in the Electricity Act 2003, Open Access stands out as probably the most important provision that has brought about a paradigm shift in the power sector and has not only enabled but empowered consumers to access unconstrained supply of power at an affordable price with substantial savings vis a vis distribution company's tariff. Over the years, a large number of consumers, mainly industrial and commercial have taken benefit from it and either reduced or optimized their average cost of power purchase. Open Access flourishes in some states to the extent that a majority of consumers in those states purchase power through the OA route intermittently, if not regularly. Having said that, there also exists a reality that a number of states still restrict or discourage consumers from going into Open Access

either by increasing CSS/Additional Surcharge, or put such conditions which are detrimental to Open Access power purchase route.

The Company estimates the total potential of Open Access Market to be around 3126 MW out of which it is currently facilitating around 268 MW for its clients in different States. By virtue of this volume, the Company had an earning of ~₹ 2.91 Crores, during FY20, whereby the estimated market potential is around ₹ 40 Crore. Considering the huge potential in this segment, the Company envisages to target customers who are eligible to procure power through open access and facilitate for power procurement by any of the routes i.e., through Exchange or on Bilateral mode (3rd party) or on Group Captive Power Plant mode. The Company strategizes to target markets which will be viable, profitable and has the potential to add long-term value to the Company, with an objective to increase the market share from 7% to 11%. The Company has presence in different states to convert the OA potential, and is also actively collaborating with its group company for various activities aimed to expand the market reach betting on their vast geographical presence. The joint team plans to evolve as a one stop shop for comprehensive basket of value added solutions for open access customers

ii. Qualified Coordinating Agency (QCA)

During the year, new states coming up with regulations on RE F&S had eliminated the very basic concept of aggregation. Being in-firm power there are variations in schedule versus actual and aggregation of RE power across different terrain in a state, reduces error significantly thereby improves grid stability. Without provision of aggregation, the considerable amount in terms of percent of revenue earned by generator goes to state pool account on reasons of DSM penalty. Under such situation, QCA became a performance based services which required it's own in-house forecast platform.

With initial success in generating solar and wind power forecast using physical / statistical methods for 27 stations (2617 MW), the Company is now looking for automation of F&S process to cater larger market share by engaging a 3rd party software developer as partner to provide end to end AI/ML based Forecasting services as well as QCA services under Success sharing model based on Forecasting accuracy commitment. Your Company is also planning to enhance its field strength bandwidth to cater to more business prospects.

iii. Consultancy Services for REC & Escert Trading

In the area of Renewable Energy Certificates (RECs) trading and Energy Saving Certificates (ESCs) trading, your Company has emerged as one of the largest trader in the REC market and traded 10,58,280 RECs during the year

iv. Advisory services to Group captive Power Plant opportunities

Your Company, from its conventional trading business, has also expanded into Group Captive Advisory Services as a Value Added Service Business Segment by engaging with Generators and Open Access Consumers in potential states of Maharashtra, Gujarat, Tamil Nadu, Telangana, Andhra Pradesh for both conventional and renewable power.

In 2018, the Company had successfully facilitated TPREL Vagarai wind farm project in Tamil Nadu with Open Access Consumers including Tata Realty Infotech Ltd, Chennai under the Group Captive model.

In 2019, the Company had entered into service contract with TPREL for facilitating GCPP advisory support to Solar Plants on a pan-India basis for Open Access Consumers. As a part of this service agreement, the Company is facilitating 120 MW solar GCPP project with Open Access Consumers in Maharashtra, including Netmagic IT Services Pvt Limited. On the conventional energy front, the Company is presently engaging with Thermal Generators and Open Access Consumers in Telangana, Andhra Pradesh and Tamil Nadu for expanding the Group Captive Business Segment, in addition to renewable GCPP.

- **Upgrading IT Infrastructure**

Application Development for Qualified Co-ordinating Agency (QCA) business has been initiated to improve the efficiency and response time to the customers.

Operations Control Room has been shifted from Noida to bigger location with upgraded infrastructure at PSCC in Mumbai. While the disaster recovery site has been moved from Mumbai to Noida office.

- **Tata Business Excellence Model (TBEM)**

The Tata Business Excellence Model (TBEM) matrix has been conceived to deliver strategic direction and drive business improvements at the Tata Group. Aimed at enabling Tata Group companies capture the best global business processes and practices, the business excellence assessment model invests Tata Group companies with the inherent dynamism to evolve and keep pace with ever-changing business performance parameters. The main objectives of the Tata business excellence model assessment methodology is to enhance value for all stakeholders and contribute to marketplace success, maximise enterprise-wide effectiveness and capabilities, and deliver organisational and personal learning. The best part of this exercise is its agility to improve. On the same lines now our processes have

been aligned to the company T&D business vertical. While realignment the Company has reduced its no of business verticals from 4 to 3. We have also reviewed our no of EPM's and have succeeded in removed the repetition of processes thereby bringing the no of total EPM's from 23 to just 11.

- **Customer Satisfaction Survey**

Your Company conducts the Consumer Satisfaction Survey (C-Sat Survey) every year and adopted CAWI (Computer Aided Web Interview) methodology for obtaining customer response utilizing free service from Qualtrics.com for survey. The survey measured responses across four major dimensions which are Overall Experience, Recommendation, Continuity of business, & Competitive Advantage. The customers have rated high for trustworthiness, timely response, staff accessibility and complaint resolution. The C-Sat Survey Score for FY20 was at 89% as compared to 91% in FY19.

5. Change(s) in the nature of business, if any

There is no change in the nature of the business of the company.

6. Reserve

The net movement in the various reserves of the Company for FY20 and the previous year are as follows:

| ₹ crore | | |
|-----------------------------|--------|--------|
| Particulars | FY20 | FY19 |
| Revaluation Reserve | Nil | Nil |
| Securities Premium Account | 20.90 | 20.90 |
| General Reserve | 13.55 | 13.55 |
| Retained Earnings | 181.98 | 141.43 |
| Deemed capital contribution | 0.08 | 0.08 |

7. Changes in Share Capital

There is no change in share capital of the Company during the year under review.

8. Subsidiaries/Joint ventures/Associates

The Company does not have any subsidiary, joint ventures and associate companies.

9.1 Directors and Key Managerial Personnel

9.2 Additions

(a) During the year following directors have been appointed:

- Mr. Sanjay Kumar Banga (DIN: 07785948) appointed with effect from 19th July 2019.
- Ms. Kiran Gupta (DIN: 08196580) was regularized as Director in the Annual General Meeting held on 26th August, 2019.
- Ms. Sanjay Kumar Banga (DIN: 07785948) was regularized as Director in the Annual General Meeting held on 26th August, 2019.

(b) During the year following Key Managerial Personnel were appointed:

- Mr. Bhaskar Sarkar as Chief Executive Officer with effect from 1st December 2019.
- Mr. Lalit Narang as Chief Financial Officer with effect from 1st August 2019.
- Ms. Ritu Gupta as Chief Financial Officer with effect from 25th January 2020.

9.3 Retirements/resignations

(a) During the year following directors have resigned:

- Mr. Ashok Sethi (DIN: 01741911) retired with effect from 01st May, 2019 from the Board of Directors, on account of superannuation. The Board thanked him for his services and contributions.
- Mr. Sanjeev Mehra (DIN: 02626778), retired with effect from 01st December, 2019 from the Board of Directors, on account of superannuation. The Board thanked him for his services and contributions.

(c) During the year following Key Managerial Personnel resigned:

- Mr. Suranjit Mishra as Chief Financial Officer with effect from 31st July, 2019.
- Mr. Lalit Narang as Chief Financial Officer with effect from 24th January, 2020.

- Number of Board Meetings and dates

Five Board Meetings were held during the year and the gap between two Board Meetings did not exceed four months. The dates on which said meetings were held are as follows:

- i) 16th April 2019
- ii) 19th July 2019
- iii) 22nd October 2019
- iv) 14th November 2019
- v) 20th January 2020

The names and categories of the Directors of the Board and their attendance at the Board Meeting is as under.

| Sr. No. | Name of the Director | Category of Directorship | Number of Board Meetings attended during the Financial Year 2019-20 |
|---------|---------------------------------------|---|---|
| 1 | Mr. Ashok Sethi ⁽¹⁾ | Chairman, Non-Independent, Non-Executive Director | 1 |
| 2 | Mr. Praveer Sinha | Non-Independent, Non-Executive Director | 5 |
| 3 | Mr. Sanjay Kumar Banga ⁽²⁾ | Non-Independent, Non-Executive Director | 4 |
| 4 | Mr. Sanjeev Mehra ⁽³⁾ | Executive | 4 |
| 5 | Mr. Ajay Kapoor | Non-Independent, Non-Executive Director | 4 |
| 6 | Ms. Kiran Gupta | Women- Non Executive Director | 5 |

Note:

(1) Superannuated with effect from 01.05.19

(2) Appointed with effect from 19.07.2019 and regularized in the Annual general meeting held on 26.08.2019.

(3) Superannuated with effect from 01.12.19

- General Body Meeting

Annual General Meeting (AGM) for FY19 was held on 26th August, 2019.

- Committees of the Board

The Company has following Committees of the Board; the number of meetings held by the committees is also mentioned.

The Composition of Audit Committee as on FY ended 2020 is given below:

Table: Composition of Audit Committee and their designation

| Sr. No | Name of Members | Designation |
|--------|-----------------|-------------|
| 1 | Ajay Kapoor | Chairman |
| 2 | Sanjay Banga | Member |
| 3 | Kiran Gupta | Member |

There was One (1) Audit Committee meeting held during the FY 20 on 15th January, 2020.

The Composition of Corporate Social Responsibility Committee and changes held during the FY 2020 is given below:

Table: Composition of Corporate Social Responsibility Committee and their designation(s)

| Sr. No | Name of Director | Designation |
|--------|------------------------------|-------------|
| 1 | Ashok Sethi ⁽¹⁾ | Chairman |
| 2 | Ajay Kapoor | Chairman |
| 3 | Sanjeev Mehra ⁽²⁾ | Member |
| 4 | Kiran Gupta | Member |
| 5 | Sanjay Banga | Member |

(1) Ceased to be director with effect from 01.05.2019.

(2) Ceased to be director with effect from 01.12.2019.

There were two (2) Corporate Social Responsibility (CSR) Committee meetings held during the FY 20 on 16th April, 2019 and 15th October, 2019.

Committee of Directors (for borrowing)

The Composition of Committee as on FY ended 2020 is given below:

Table: Composition of Committee of Directors and their designation

| Sr. No | Name of Members | Designation |
|--------|-----------------|-------------|
| 1 | Ajay Kapoor | Chairman |
| 2 | Sanjay Banga | Member |
| 3 | Kiran Gupta | Member |

There was One (1) meeting held during the FY 20 on 22nd October, 2020.

We confirm the above is a complete list of all Shareholder / Member meetings, Board and Committee meetings held during FY20.

- The following disclosures shall be made on the remuneration of directors. All elements of remuneration package of individual directors summarized under major groups, such as salary, benefits, bonuses, stock options, pension etc.

Added as Annexure V

9. Annual Evaluation of Board Performance and Performance of its Committees and Individual Directors

Pursuant to the provisions of the Companies Act 2013, the Annual Board Evaluation is not applicable to the Company.

10. Regulatory

11.1 REGULATORY ENVIRONMENT

- [CERC \(Procedure, Terms and Conditions for grant of trading license and other related matters\) Regulations, 2019](#)

CERC has issued new Regulations, 2020 on Procedure, Terms and Conditions for grant of trading license and other related matters, repealing the earlier CERC (Procedure, Terms and Conditions for grant of trading license) Regulations, 2009. CERC (Fixation of Trading

Margin) Regulations 2010 have also been repealed and terms and conditions for charging trading margin have been merged into these new Regulations, 2020.

- [Banking of electricity](#) has been allowed through a Trading Licensee
- [Financial Qualification](#) – Capital Adequacy and Liquidity Requirements – For Cat-I Trader, minimum net worth requirement is 50 Crores and trading volume to be minimum 7,000 MU per annum. if the annual volume of electricity proposed to be traded exceeds 10,000 MUs, the Trading Licensee shall have a minimum net worth of Rs. 75 Crores. A new Category V has been introduced with minimum net worth of Rs 2 Crores and trading volume up to 500 MU.

- [Trading Margin:](#)

For Short term contract including through Exchanges shall charge a trading margin of not less than 0.0 paise/kWh and not exceeding 7.0 paise/kWh. In case LC/Escrow arrangement not provided to seller, trading margin shall be capped at 2.0 paise/kWh

- ✓ For long term contract, trading margin shall be decided mutually between the Trading licensee and the Seller, provided in case LC/Escrow arrangement not provided to seller, trading margin shall be capped at 2.0 paise/kWh
- ✓ For banking transaction Trading Licensee shall charge a cumulative trading margin of not less than zero (0.0) paise/kWh and not exceeding seven (7.0) paise/kWh.
- ✓ For back to back contracts, where LC/Escrow not provided by Traders, trading margin shall not exceed 2.0 paise/kWh.
- ✓ For Cross Border Trade of Electricity, the trading margin shall be decided mutually between the Trading Licensee and the seller
- [Payment Security:](#) For short term contract, Trader shall arrange LC/Escrow in favour of Seller, for amount equivalent to 1.05 times of contract value. For long term, the payment security shall be 1.1 times the average monthly bill.
- [First Amendments to Trading License Regulations:](#)
 - ✓ A new proviso shall be added to sub-clause (e) of clause (1) of Regulation 8 of the Principal Regulations, as under:- *"Provided that the trading margin shall not be less than zero (0.0) paise/kWh from either of the parties to the banking transaction."*
 - ✓ A new proviso shall be added after sub-clause (b) of clause (10) of Regulation 9, as under:- *"Provided that where the duration of the short term contract is more than one*

month, the letter of credit in favour of the seller shall be equivalent to one point zero five (1.05) times of the monthly contract value with validity period equal to validity of the contract"

11.2 Draft CERC (Sharing of ISTS Charges and Losses) Regulations

No transmission loss for ISTS shall be applicable while preparing schedule for injection node including that for Collective Transactions over the Power Exchanges. As proposed in the Regulations, transmission charges would be determined post facto on the basis of actual generation and demand i.e. two months after the power flows

At present, schedules for collective transaction are prepared at Regional Periphery. The buy DICs need to add the withdrawal POC losses in buy quantum at state periphery and similarly sell DICs need to subtract the injection POC losses from the sell quantum at Generator Ex-bus.

In the proposed Regulations, as there shall not be any Injection transmission loss, it is not clear at what point the schedule and price discovery for collective transaction would be considered. In our view, all buy bids should be aggregated at Buyer's state periphery and accordingly, sell bids at Ex-bus of Generator/Seller should be brought at buyer's state periphery by subtracting the weekly All India Average Transmission losses as per clause 10(1), from aggregated sale bids i.e. quantum at Ex-bus of Generator/Seller.

Transmission charges should be known in advance and this would facilitate the participation of OA Consumers. The uncertainty regarding ISTS charges and STU charges would hamper the Open Access consumers from participating in the market.

Transmission Deviation Rate shall be applicable for STOA transaction calculated as follows: For STOA transaction, CERC proposed to levy transmission charges as 1.2 times of state charges

Transmission deviation should not be levied on account of STOA schedule as in the prevailing Regulations there is no deviation rate for STOA.

11.3 Other key Regulatory developments in the year FY 2019-20 are as follows

1. Proposed Green Power Contract at IEX

IEX has filed petition before CERC seeking approval for introduction of Green Term Ahead Market at Power Exchange. IEX had proposed Green – Term Ahead contracts in the

categories like Green – INTRA DAY, Green – DAY AHEAD CONTINGENCY, Green – DAILY and Green – WEEKLY.

2. [Draft Detailed Procedure for STOA in Inter-State Transmission through National Open Access Registry \(NOAR\)](#)
3. Your Company has submitted its comments against draft procedure on Real Time Market issued by POSOCO.

11. Risk Management Framework and Internal Financial Controls

- [Risk Management System](#)

Your company is ISO 31000 certified company. It has instituted a risk management system to support the delivery of the Company's strategy by managing the risks of failing to achieve business objectives.

By focusing on the early identification of key risks, it enables your company to conduct a detailed scrutiny of the existing level of mitigation and further management actions required to either reduce or remove the risk.

On periodic basis, each functional lead carries out a detailed risk review exercise and updates the risk register. The register ensures consistency of approach in management and reporting of risks. Risk Management framework aims at achieving the following:

- Identify and classify each risk
- Assess the inherent risk impact and likelihood,
- Identify mitigation measures;
- Identify risk owner who has responsibility for the timely implementation of the agreed mitigation plan; and
- Report on implementation of risk mitigation action plan.

Subsidiary Risk Management Committee (SRMC) Meetings revisit the risk management framework annually.

Due to rigorous Risk Management system of rating the Discoms, your Company's debtors outstanding is one of the lowest in the power trading industry.

- [Business Continuity and Disaster Management Program \(BCDMP\)](#)

Your Company is certified ISO 22301:2012 Company for BCDMP. Mockdrills and Table Top Exercise were carried out during the year to increase awareness and prepare the team for any eventuality. We have identified the processes under L1, L2, L3 and L4 processes. In-line with the requirement of the certification, it has developed Damage Assessment Team,

Technical Team and Operation Team to conduct devise the plan in case Business Continuity or Disaster Management is invoked.

- [Internal Financial Controls](#)

Your Company had appointed Chief - Internal Audit & Risk Management of Tata Power as Internal Auditor of the Company. The Internal Auditors endeavours to make meaningful contributions to the organisation's overall governance, risk management and internal controls. The function reviews and ensures sustained effectiveness of Internal Financial Controls by adopting a systematic approach.

Section 143 (3) of the Companies Act, 2013 provides that the Auditors' Report shall state whether the Company has adequate Internal Financial Controls (IFC) system in place and the operating effectiveness of such controls. The Statutory Auditors shall report on the existence of adequate IFC and its operational effectiveness for the financial year.

As per section 134 of the Act, Directors of the Company, based on the representations received from the Management are to confirm in the Directors Responsibility Statements that the Internal Financial controls are not only adequate, but are also operating effectively.

With this objective in mind and to fulfil the requirements of the Companies Act, 2013, in FY18, the internal auditors have identified key controls. The Company has adopted the Committee of Sponsoring Organisations (COSO) framework. COSO is a leading framework, which provides guidance on design and evaluation of internal controls. It provides assurance of financial controls in place at the level of functional heads and at top management level. This has helped in assessing the effectiveness and efficiency of operational controls, enhanced governance and consideration of anti-fraud expectations, reliability of financial reporting and statutory compliances. Attributes with internal control deficiency are identified with action plan to be taken and the target dates.

For the Business Process level, controls are evaluated through internal audits and Control Self-Assessment (CSA). These CSAs have also been rolled out across all functions in the Company.

The Internal Audit process includes review and evaluation of process robustness, effectiveness of controls and compliances. It also ensures adherence to policies and systems, and mitigation of operational risk perceived under each area under audit. Internal Audits are classified into vital, essential and desirable, based on the analysis of process impact of Company's Strategic Objectives. Post the audit, process is rated through Risk Control Index (RCI) and Process Robustness Index (RCI) given by the Internal Auditors. Significant observations including recommendations for improvement of the business processes are reviewed with the Management before reporting to the Audit Committee.

The Audit Committee reviews the Internal Audit Reports and the status of implementation of the agreed action plan.

On the review of Internal Audit observations and actions taken on audit observations, we can state that there are no adverse observations having material impact on financials or commercial implication or material non-compliances which have not been acted upon.

Control Self-Assessment (CSA): CSA process followed this year as well, whereby responses of all process owners are used to assess built in internal controls in each process. This helps the Company to identify focus audit areas, design audit plan and support CEO/CFO certification for internal controls. The CSA questionnaire is designed to test effectiveness of deployment of existing controls for processes including the ones which are not to be audited as per audit plan. The responses received from process owners on the questionnaire are analysed.

Process Robustness Index (PRI): The processes are examined to assess their robustness primarily from the perspective of system driven controls which ensure deviations from the defined process do not occur due to manual interventions. In case controls have not been embedded in the system, other compensating controls such as maker-checker are exercised to assess the robustness of the process. This index is computed on the basis of existence of robust controls and not on the basis of extent of implementation of these controls.

The Statutory Auditors carry out a limited quarterly review and these reports have not reported any adverse findings. The Company's Secretarial Audit carried out in the current year has not indicated any major lapses.

12. Whistle Blower Policy / Vigil Mechanism:

The Company believes in the conduct of affairs of its constituents in a fair and transparent manner by adopting highest standards of professionalism, honesty, integrity and ethical behaviour. In line with the Tata Code of Conduct (TCOC), any actual or potential violation, howsoever insignificant or perceived as such, is a matter of serious concern for the Company. The role of the employees in reporting such violations of the TCOC is critical to its implementation.

Vigil Mechanism has been formulated with a view to provide a mechanism for employees of the Company to approach the Chief Ethics Counsellor (CEC).

13. Sustainability

13.1 Safety – Care for our People

Safety Statistics FY18:

| Sl. No. | Safety Parameters (Employees and contractors) | FY20 | FY19 |
|---------|---|------|------|
| 1 | Fatality (Number) | NIL | NIL |
| 2 | LTIFR (Lost Time Injuries Frequency Rate per million man hours) | NIL | NIL |
| 3 | Total Injuries Frequency Rate (TIFR) (Number of Injuries per million man hours) | NIL | NIL |
| 4 | First Aid Cases (Number) | NIL | NIL |

13.2 Care for our Community/Community Relations

Your Company has a CSR Policy in place(<http://tatapowertrading.com/about-us/csr.php>), the CSR Committee passed the policy on 21st October, 2015, which was revisited on 13th May, 2016 and again new policy was adopted on 22.10.2019 by the Board of Directors. The CSR budget for FY 20 was ₹ 60 lacs.

Your Company has invested in following schemes under CSR activities:

- Tree Plantation Drive

The Company organized a tree plantation drive by planting more than 400 saplings with support of local Authority at designated spots in the Noida city. Over 20 volunteers took part in the well-orchestrated campaign which witnessed participation from employees of the Company. This is our small attempt to reduce the carbon footprints that we generate in the world of rapid urbanization and a drive with the novel intent of increasing the green cover of the beautiful city.

- [Water Project](#)

Water is the primary necessity, without it, a living being simply cannot survive. Yet, it is a horrific fact that there are billions of people around the world who do not have access to clean drinking water.

Unfortunately, clean water is still inaccessible for many and will remain that way until governments are willing to take a stand. Clean water is essential not only to remain safe from disease but also to maintain good health and in order provide clean, safe drinking water. In this regard the Company launched two projects

- a) The Company installed a small scale Reverse Osmosis (RO) Water Treatment System at an one of the Out-of-Home Care (O.H.C.) Ghar where girl children resides who are parentless, abandoned or abused children and are in need of protection.
- b) The Company initiated a project for setting up of Boring & Submersible water pump solution at Government Girls School. The school was at remote area and had limited access to water. The bore well was dug up to 200 ft. and submersible pump was installed along with requisite Water tank, piping, necessary taps and electrical arrangement for submersible pump.

- [Swachhata Hi Seva Activity](#)

As Swachh Bharat Mission was launched throughout length and breadth of the country as a national movement. The campaign aims to achieve the vision of a 'Clean India'. The Company supported this movement by initiating a cleanliness drive at Noida. The employees participated in the event with great enthusiasm and made a determination for Ek Kadam Swachta Ki Oore.

- [SASTRA UNIVERSITY](#)

CSR activities undertaken by SASTRA University in areas surrounding the University in Tamil Nadu.

- [Social Capital and Institution Building](#)

The objective of the project was to empower local unemployed youth through pre-approved skill development programs to pursue their future micro-venture/business and create avenues for their sustainable livelihood through entrepreneurial orientation and assistance.

The target group was 100 trainees to be identified from 10 villages near SASTRA University.

After conducting a baseline survey to identify beneficiaries, lectures and hands on experience was to be provided by experienced trainers to fuel entrepreneurial spirit within the beneficiaries so they may consider opening their own micro-venture businesses after the program.

- [Livelihood Improvement through capacity building of SHG](#)

The objective was dissemination of product information and providing a platform for "Exhibition-cum-sale" of products made by them.

- [Distribution Of Food](#)

In the wake of India's nationwide lockdown due to COVID-19, migrant/daily wage workers had no means to earn a living in the cities and had no money to buy food. The Company with support of an NGO and assisted by Police, began a relief operation for poor and needy by distributing nearly 511 food packets in East Delhi area.

- [Tata Power Community Development Trust \(TPCDT\):](#)

Your company signed an MOU with TPCDT for an amount of ₹ 16 lakhs in FY19, which was dispersed for various programs in Haldia, details of which are given below:

- Education Excellence Program

The objective of the program was- (i) To reduce drop out and enhance enrolment; (ii) To retain all children in project area between 6 to 14 years age group; (iii) To ensure increased learning outcome; and (iv) To ensure equal educational opportunity for all with focus on girl child in Haldia. Key activities undertaken to achieve the objectives include - awareness in parents and children - for mainstreaming dropouts/enhancing enrolment; education resources in primary schools; assessment of reading/writing/retention skills for students; Teachers Training; formulation and development of TLM and night coaching & career guidance.

- Farm and Non Farm Livelihood

ANNEXURE VI – DEPOSITS

N.A.

ANNEXURE-VII

FORM No. MR-3
SECRETARIAL AUDIT REPORT
FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2020

(Pursuant to Section 204 (1) of the Companies Act, 2013 and rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014)

To,
THE MEMBERS,
Tata Power Trading Company Limited,
Carnac Receiving Station, 34-Sant Tukaram Road,
Carnac Bunder, Mumbai-400009.

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Tata Power Trading Company Limited** (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on our verification of the **Tata Power Trading Company Limited** (hereinafter called the Company). Secretarial Audit was conducted in a manner that books, papers, minute books, forms and returns filed and other records maintained by the company and the information provided by the company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2020, complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records made available to us and maintained by Industrial Energy Limited for the financial year ended on 31st March, 2020 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contract (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;

- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; **(Not applicable to the Company during the audit period)**
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992 and Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015; **(Not applicable to the Company during the audit period)**
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 and amendments from time to time; **(Not applicable to the Company during the audit period)**
 - (d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014; **(Not applicable to the Company during the audit period)**
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008; **(Not applicable to the Company during the audit period)**
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client; **(Not applicable to the Company during the audit period)**
 - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 **(Not applicable to the Company during the audit period);** and
 - (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998; **(Not applicable to the Company during the audit period)**
- (vi) Other laws applicable specifically to the Company namely:
 - a. The Electricity Act, 2003 and Central Electricity Regulatory Commission (Procedure, Terms and Conditions of grant of trading licence and related matters) Regulations, 2009

- b. The Electricity Act, 2003 and The Central Electricity Regulatory Commission (Fixation of Trading Margin) Regulations, 2010
- c. The Electricity Act, 2003 and The Central Electricity Regulatory Commission (Power Market) Regulations, 2010
- d. The Electricity Act, 2003 and The Electricity Rules, 2005

We have also examined compliance with the applicable clauses of the following:

Secretarial Standards issued by The Institute of Company Secretaries of India with respect to board and general meetings.

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards etc. mentioned above.

I further report that:

The Board of Directors of the Company is duly constituted. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notices were given to all directors to schedule the Board Meeting, Agenda and detailed notes on agenda were sent at least seven days in advance other than those held at shorter notice, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All the decisions in the Board Meeting and Committee meeting are carried out unanimously and recorded in the minutes of the meetings of the Board of Directors and committee of the Board of Directors, as the case may be.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further reported that during the audit period no events occurred which had bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc.

INDEPENDENT AUDITOR'S REPORT

To the Members of Tata Power Trading Company Limited

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of Tata Power Trading Company Limited ("the Company"), which comprise the Balance sheet as at March 31 2020, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, its profit/loss including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the [Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are

S.R. BATLIBOI & Co. LLP

Chartered Accountants

inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those;
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - (e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
 - (g) In our opinion, the managerial remuneration for the year ended March 31, 2020 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

S.R. BATLIBOI & Co. LLP

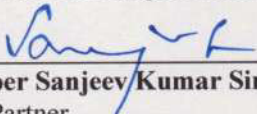

Chartered Accountants

- i. The Company does not have any pending litigations which would impact its financial position;
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure 1 referred to in paragraph 1 of under the heading of "Report on other Legal and Regulatory Requirements" of our report of even date

Re: Tata Power Trading Company Limited ("the Company")

- i. (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) Fixed assets have been physically verified by the management during the year and no material discrepancies were identified on such verification.

(c) According to the information and explanations given by the management, there are no immovable properties, included in property, plant and equipment of the company and accordingly, the requirements under paragraph 3(i)(c) of the Order are not applicable to the Company
- ii. The Company's business does not involve inventories and, accordingly, the requirements under paragraph 3(ii) of the Order are not applicable to the Company.
- iii. (a) The Company has granted loans to one Company covered in the register maintained under section 189 of the Companies Act, 2013. In our opinion and according to the information and explanations given to us, the terms and conditions of the grant of such loans are not prejudicial to the company's interest.
(b) The schedule of repayment of principal and payment of interest has been stipulated for the loans granted and the repayment/receipts are regular.

(c) There are no amounts of loans granted to companies, firms or other parties listed in the register maintained under section 189 of the Companies Act, 2013 which are overdue for more than ninety days.
- iv. In our opinion and according to the information and explanations given to us, provisions of section 186 of the Companies Act 2013 in respect of loans and advances given, investments made and, guarantees, and securities given have been complied with by the company.
Further there are no loans, given in respect of which provisions of section 185 of the Companies Act 2013 are applicable and hence not commented upon.
- v. The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- vi. To the best of our knowledge and as explained, the Central Government has not specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, for the products/services of the Company.
- vii. (a) The Company is generally been regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, value added tax, goods and service tax, cess and other statutory dues as applicable to it though there has been a slight delay in a few cases.

S.R. BATLIBOI & CO. LLP

Chartered Accountants

- (b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, service tax, sales-tax, value added tax, goods and service tax, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
- (c) According to the information and explanations given to us, there are no dues of income tax, sales-tax, service tax, customs duty, excise duty, value added tax and cess which have not been deposited on account of any dispute.
- viii. In our opinion and according to the information and explanations given by the management, the Company has not defaulted in repayment of loans or borrowing to a financial institution, bank. The Company did not have any loans or borrowing in respect of a Debentures or to government during the year.
- ix. According to the information and explanations given by the management, the Company has not raised any money way of initial public offer / further public offer / debt instruments) and term loans hence, reporting under clause (ix) is not applicable to the Company and hence not commented upon.
- x. Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, we report that no fraud by the Company or no fraud on the Company by the officers and employees of the Company has been noticed or reported during the year.
- xi. According to the information and explanations given by the management, the managerial remuneration has been paid / provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act, 2013.
- xii. In our opinion, the Company is not a Nidhi company. Therefore, the provisions of clause 3(xii) of the Order are not applicable to the Company and hence not commented upon.
- xiii. According to the information and explanations given by the management, transactions with the related parties are in compliance with section 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- xiv. According to the information and explanations given to us and on an overall examination of the balance sheet, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and hence, reporting requirements under clause 3(xiv) of the Order are not applicable to the Company and, therefore not commented upon.
- xv. According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with him as referred to in section 192 of Companies Act, 2013.

S.R. BATLIBOI & Co. LLP

Chartered Accountants

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF TATA POWER TRADING COMPANY LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Tata Power Trading Company Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these financial statements.

S.R. BATLIBOI & Co. LLP

Chartered Accountants

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

A company's internal financial control over financial reporting with reference to these financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting with Reference to these Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

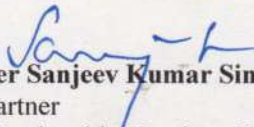

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these financial statements and such internal financial controls over financial reporting with reference to these financial statements were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

INDEPENDENT AUDITOR'S REPORT

To the Members of Tata Power Trading Company Limited

Report on the Audit of the Ind AS Financial Statements**Opinion**

We have audited the accompanying Ind AS financial statements of Tata Power Trading Company Limited ("the Company"), which comprise the Balance sheet as at March 31 2020, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, its profit/loss including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the [Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are

S.R. BATLIBOI & CO. LLP

Chartered Accountants

inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those;
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - (e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
 - (g) In our opinion, the managerial remuneration for the year ended March 31, 2020 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

S.R. BATLIBOI & Co. LLP

Chartered Accountants

- i. The Company does not have any pending litigations which would impact its financial position;
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Tata Power Trading Company Limited
Notes forming part of Financial Statements

1 Corporate Information:

Tata Power Trading Company Limited is a wholly owned subsidiary of The Tata Power Company Limited. The Company is primarily engaged in the business of trading of electricity across the country. Central Electricity Regulatory Commission (CERC) has granted Category "I" certificate to the Company for purposes of power trading, which allows the Company to trade power units without any quantitative restrictions. The Company sources power from different public and private sectors utilities and supplies to various consumers being public and private sectors power utilities. The Company is a public limited company incorporated and domiciled in India and has its registered office of the Company is Carnac Receiving station, 34, Sant Tukaram Road, Carnac Bunder, Mumbai - 400009, India.

The financial statements were approved for issue by Board of Directors on 29th April 2020.

2 Significant accounting policies:

2.1 Statement of compliance

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirement of Division II of Schedule 3 of the Companies Act 2013 (INDAS Compliance Schedule 3).

2.2 Basis of preparation and presentation

The financial statements have been prepared on a historical cost basis, except for certain financial assets & financial liability measured at fair value (refer note 3.2 accounting policy regarding financial instruments, note 3.3 regarding financial assets & note 3.4 regarding financial liabilities & equity instrument.)

2.3 Use of estimates

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of impairment of investment, provision for employee benefits, useful life of property, plant & equipment.

3. Other Significant Accounting Policies

3.1 Foreign Currencies

The functional currency of the Company is Indian rupee (₹). These Financial Statements are presented in Indian rupees.

In preparing the financial statements of the Company, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings. Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled.

3.2 Financial Instruments

Financial assets and financial liabilities are recognised when entity becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

3.3 Financial Assets

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

3.3.1 Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition)

- The asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- The contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- The asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- The contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments in fair value through Profit or loss category are measured at fair value with all changes recognised in Profit and loss

3.3.2 Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for financial assets other than those financial assets classified as at fair value through profit or loss. Interest income is recognised in the Statement of profit and Loss and is included in the "Other income" line item.

3.3.3 Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

3.3.4 Derecognition of financial assets

The company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the Statement of Profit and Loss.

3.3.5 Impairment of financial assets

The Company assesses at each date of balance sheet whether a financial asset or a Company of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

3.4 Financial liabilities and equity instruments

3.4.1 Classification as debt or equity

Debt and equity instruments issued by a Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

3.4.2 Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

The following are the amounts recognised in statement of Profit and Loss in respect of short term lease :

(in Lakhs)

| Particulars | As at March 31st 2020 |
|---|-----------------------|
| Expenses related to short term leases | 133.32 |
| Expenses related to leases of low value assets, excluding short term leases of low value assets | - |

3.4.6 Impairment of tangible and intangible assets other than goodwill

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate Cash inflows that are largely independent of those from other assets or group of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future Cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share Prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future Cash flows after the fifth year to estimate Cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates Cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the market in which the asset is used.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss, except for properties previously revalued with the revaluation surplus taken to OCI. For such properties, the impairment is recognised in OCI up to the amount of any previous revaluation surplus. For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised.

3.4.7 Cash Flow Statement

Cash flows are reported using the indirect method, where by profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expense associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

3.4.8 Operating cycle

Considering the nature of business activities, the operating cycle has been assumed to have duration of 12 months. Accordingly, all assets and liabilities have been classified as current or noncurrent as per the Group's operating cycle and other criteria set out in Ind AS 1 'Presentation of Financial Statements' and Schedule III to the Companies Act, 2013.

3.4.9 Contingent liabilities

Contingent liabilities are disclosed in the financial statements by way of notes to accounts, unless possibility of an outflow of resources embodying economic benefit is remote.

3.4.10 Dividend distribution to equity shareholders of the Company

The Company recognises a liability to make dividend distributions to its equity holders when the distribution is authorised and the distribution is no longer at its discretion. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

In case of Interim Dividend, the liability is recognised on its declaration by the Board of Directors.

3.5 Change in accounting policies and disclosures

a) Ind AS 12 – Income taxes (amendments relating to income tax consequences of dividend and uncertainty over income tax)

Appendix C to Ind AS 12 Uncertainty over Income Tax Treatment -

The appendix addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of Ind AS 12 Income Taxes. It does not apply to taxes or levies outside the scope of Ind AS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The Appendix specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately
- The assumptions an entity makes about the examination of tax treatments by taxation authorities
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
- How an entity considers changes in facts and circumstances

The Company determines whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments and uses the approach that better predicts the resolution of the uncertainty.

The Company applies significant judgement in identifying uncertainties over income tax treatments.

Upon adoption of the Appendix C to Ind AS 12, the Company considered whether it has any uncertain tax positions. The Company determined, based on its tax compliance, that it is probable that its tax treatments will be accepted by the taxation authorities. The Appendix did not have an impact on the financial statements of the Company.

3.4.3 Financial liabilities

Financial Liabilities at fair value through profit or loss

Financial liabilities are classified as at fair value through profit or loss when the financial liability is held for trading or it is designated as at fair value through profit or loss.

- A financial liability is classified as held for trading if:
- It has been incurred principally for the purpose of repurchasing it in the near term; or
 - On initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
 - It is a derivative that is not designated and effective as a hedging instrument

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the gross carrying amount on initial recognition.

Financial Guarantee contract

A financial guarantee contract is a contract that requires the issuer to make specified payment to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by a group entity are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- The amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- The amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 18.

3.4.4 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the Statement of Profit or Loss.

3.4.5 Leasing arrangement

At inception of contract, the Company assesses whether the Contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At inception or on reassessment of a contract that contains a lease component, the Company allocates consideration in the contract to each lease component on the basis of their relative stand alone price.

As a lessee

i) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received and estimate of costs to dismantle. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

ii) Lease liabilities

At the commencement of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. In calculating the present value of lease payments, the Company generally uses its incremental borrowing rate at the lease commencement date if the discount rate implicit in the lease is not readily determinable.

After the commencement, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. The carrying amount is remeasured when there is a change in future lease payments arising from a change in index or rate. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

As a lessor

Leases are classified as finance lease whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership to the lessee. All other leases are classified as operating lease. The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of other income.

Implementation of Ind AS 116 Leases

Ind AS 116 Leases was notified in March 2019 and it replaces Ind AS 17 Leases. Ind AS 116 is effective for annual periods beginning on or after 1 April 2019. It sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. Lessor accounting under Ind AS 116 is substantially unchanged from today's accounting under Ind AS 17. Ind AS 116 requires lessees and lessors to make more extensive disclosures than under Ind AS 17.

On transition to Ind AS 116, The company applied practical expedient to apply Ind AS 116 only to the contracts that were previously identified as leases. Contract that were not classified as leases under Ind As 17 were not assessed.

Also, the company has applied exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of leases term or in case of low value assets. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

3.6 The areas involving critical estimates are:

i) Estimation of defined benefit obligation

The cost of the defined benefit gratuity plan and other post-employment medical benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on publicly available mortality tables.

ii) Fair Value of Investment

The Company has evaluated the fair value of its investment based on fair valuation conducted by an independent expert (Also refer note 5.1 and note 33.2). As per management estimate there is no change in the fair value of investment as compared to previous years.

iii) Useful life of property, plant and equipment

As described in note 2.3 above, the company reviews the estimated useful lives of property plant and equipment at end of each annual reporting period.

Tata Power Trading Company Limited
Notes forming part of Financial Statements

4. Property, Plant and Equipment

Accounting Policy

Property, plant and equipment are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Cost includes purchase price (Net off trade discount & rebates) and any directly attributable cost of bringing the asset to its working condition for its intended use and for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are available for their intended use.

Depreciation is recognised so as to write off the cost of assets (other than properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Depreciation on property, plant and equipment has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following assets whose estimated useful life is assessed based on technical advice, taking into account the regulatory prescribed rates, nature of the asset, the estimated usage of the asset, the operating conditions of the asset, etc.

Plant and Equipments - Wind Mill : 25 years (Initial 10 years at 6% on GERC, thereafter 2%)

Plant and Equipments - Solar Plants : 15 years

Motor Vehicles : 5 years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Notes forming part of Financial Statements

5. Other intangible assets

Accounting Policy

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognised in profit or loss when the asset is derecognised.

Useful lives of intangible assets

Estimated useful lives of the intangible assets are as follows:

| Considered doubtful | 434.40 | 575.52 |
| | 54,962.56 | 57,184.30 |
| Less: Allowance for Doubtful Trade Receivables | (434.40) | (575.52) |
| Total | 54,528.16 | 56,608.78 |

The credit period on sale of power up to 90 days. Interest is charged at 15% to 18% per annum on outstanding balance beyond the credit period.

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as per the provision matrix computed as per historical experience and expected credit loss.

Age of receivables

| | As at 31st March, 2020 | As at 31st March, 2019 |
|-----------------------------|---------------------------|---------------------------|
| Within the credit period | 20,711.96 | 27,252.76 |
| 1-90 days past due | 17,141.03 | 16,218.91 |
| 91-182 days past due | 7,261.20 | 3,533.79 |
| More than 182 days past due | 9,848.37 | 10,178.84 |
| | 54,962.56 | 57,184.30 |

7. Contract Balances

The following table provides information about receivables, contract assets and contract liabilities from contract with customers

| | As at 31st March, 2020 | As at 31st March, 2019 |

| Contract liabilities | | |
| - Advance from customers | 1,523.39 | 1,025.80 |
| Total Contract Liabilities | 1,523.39 | 1,025.80 |

Tata Power Trading Company Limited
Notes forming part of Financial Statements

Contract asset is the right to consideration in exchange for goods or services transferred to the customer. Contract liability is the entity's obligation to transfer goods or services to a customer for which the entity has received consideration from the customer in advance. Contract assets are transferred to receivables when the rights become unconditional and contract liabilities are recognized as and when the performance obligation is satisfied.

8. Significant changes in the contract assets and the contract liabilities balances during the year are as follows:

17. Provisions

Accounting Policy

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions with charge to statement of profit and loss. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

Tata Power Trading Company Limited
Notes forming part of financial statements

17.1 Employee benefit plan

17.2 Defined contribution plan

The Company makes contribution towards provident fund which is a defined contribution plan for qualifying employees. The provident fund plan is operated by the Regional Provident Fund Commissioner. Under the scheme, the Company is required to contribute a specified percentage of payroll cost to the retirement benefit scheme to fund the benefits. The only obligation of the Company with respect to the retirement benefit scheme is to make the specified contributions.

The total expense recognised in the Statement of Profit and Loss is Rs. 34.32 Lakhs (for the year ended 31st March, 2019 Rs. 38.69 Lakhs) and represents contribution payable to the Employee Provident Fund. As at 31st March, 2020, contribution of Rs. 4.59 Lakhs (as at 31st March, 2019 Rs. 9.08 Lakhs) due in respect of FY 2019-20 (FY 2018-19) reporting period had not been paid to the plans. The amounts were paid subsequent to the end of the respective reporting periods.

17.3 Defined benefit plan

The Company operates the following unfunded defined benefit plans:

Post Employment Medical Benefits

The Company provides certain post-employment health care benefits to superannuated employees at some of its locations. In terms of the plan, the retired employees can avail free medical check-up and medicines at Company's facilities.

Ex-Gratia Death Benefit

The Company has a defined benefit plan granting ex-gratia in case of death during service. The benefit consists of a pre-determined lumpsum amount alongwith a sum determined based on the last drawn basic salary per month and the length of service.

Retirement Gift

The Company has a defined benefit plan granting a pre-determined sum as retirement gift on superannuation of an employee.

Gratuity

The Group has a defined benefit gratuity plan. The gratuity plan is primarily governed by the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of five years are eligible for gratuity. The level of benefits provided depends on the member's length of service and salary at the retirement date

Pension Benefits

The Company has a defined benefit pension plan. Employees who are in continuous service for a period of fifteen years are eligible for pension. The level of benefits provided depends on the member's length of service and salary at the retirement date

Risks associated with Plan Provisions

Risks associated with the plan provisions are actuarial risks. These risks are: - (i) interest risk (discount rate risk), (ii) mortality risk and (iii) salary risk.

Investment risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period of government bonds.

Interest risk (discount rate risk):

A decrease in the bond interest rate (discount rate) will increase the plan liability.

Mortality risk:

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after the employment. Indian Assured Lives Mortality (2006-08) ultimate table has been used in respect of the above. A change in mortality rate will have a bearing on the plan's liability.

Salary risk:

The present value of the defined benefit plan liability is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic risk

This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligations is not straight forward and depends upon the combination of salary increase, discount rate and vesting criterion.

Withdrawals

Actual Withdrawals providing higher or lower than assumed withdrawals and change of withdrawal rate at subsequent valuations can impact plan's liability.

Principal actuarial assumptions for all the unfunded defined benefits plans:

| | As at 31-Mar-2020 | As at 31-Mar-2019 |
|--|----------------------|----------------------|
| Discount rate (p.a.) | 6.50% | 7.40% |
| Expected rate of salary increase (p.a.) - Management | 7.00% | 7.00% |
| Expected rate of salary increase (p.a.) - Non-Management | 5.00% | 5.00% |

Note:

1. The estimates of future salary increases considered take into account the inflation, seniority, promotion and other relevant factors.

Tata Power Trading Company Limited

Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

| Particulars | As at 31-Mar-2020 Rs.in Lakhs | | As at 31-Mar-2019 Rs.in Lakhs | |
|--|----------------------------------|-------------------|----------------------------------|-------------------|
| | Decrease | Increase | Decrease | Increase |
| Discount Rate (-/+0.5%) (% change compared to base due to sensitivity) | 14.42 (7.16%) | (13.01) 6.46% | 13.19 (7.42%) | (11.82) 6.65% |
| Growth Rate (-/+0.5%) (% change compared to base due to sensitivity) | (12.59) 6.25% | 13.80 -6.85% | (9.10) 5.12% | 12.65 (7.11%) |
| Mortality Rate (-/+1 year) (% change compared to base due to sensitivity) | (0.72) 0.36% | 0.73 (0.36%) | - 0.00% | 0.43 (0.24%) |
| Withdrawal Rate (-/+5%) (% change compared to base due to sensitivity) | - 0.00% | (32.61) 16.19% | 0.43 (0.24%) | (26.44) 14.87% |

The expected maturity analysis of defined benefit obligation by respective end of financial year's (valued on undiscounted basis) are as follows:

| | (Rs. in Lakhs) | |
|---|--------------------|--------------------|
| | 31-Mar-2020 | 31-Mar-2019 |
| Within 1 Year | 7.85 | 5.53 |
| Between 1 - 2 years | 8.80 | 37.44 |
| Between 2 - 3 years | 10.31 | 4.37 |
| Between 3 - 4 years | 10.56 | 5.22 |
| Between 4 - 5 years | 12.03 | 6.22 |
| Beyond 5 Years | 115.62 | 48.61 |
| | 165.17 | 107.39 |
| | 31-Mar-2020 | 31-Mar-2019 |
| The average duration of the defined benefit plan obligation represents average duration for active members (based on discounted cash flows) | 7.4 years | 8.1 years |

Tata Power Trading Company Limited
Notes forming part of Financial Statements

18. Deferred Tax Liabilities (Net)

Accounting Policy

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

- ii. Based on information available with the company, the balance due to micro, small enterprises as defined under the micro, small & medium enterprises development (MSMED) Act, 2006 is Rs Nil (31st March 2019 : Rs Nil) and no interest has been paid or is payable during the year under the terms of the MSMED Act 2006.

22. Revenue from Operations

Accounting Policy

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services and specific criteria have been met for each of the Company's activities as described below.

i. Sale of electricity

Revenue from sale of power is recognised net of estimated rebates and other similar allowances when the units of electricity is delivered. Revenue from such contracts is recognised over time for each unit of electricity delivered at the pre determined rate. As the customer simultaneously receives and consumes the benefits of the Company's performance obligation, it best depicts the value to the customer and complete satisfaction of performance obligation.

In the arrangements the Company is acting as an agent, the revenue is recognized on net basis when the units of electricity are delivered to power procurers because this is when the Company transfers control over its services and the customer benefits from the Company's such agency services.

The Company determines its revenue on certain contracts net of power purchase cost based on the following factors:

a. another party is primarily responsible for fulfilling the contract as the Company does not have the ability to direct the use of power supplied or obtain benefits from supply of power.

b. the Company does not have inventory risk before or after the power has been delivered to customers as the power is directly supplied to customer.

c. the Company has no discretion in establishing the price for supply of power. The Company's consideration in these contracts is only based on the difference between sales price charged to procurer and purchase price given to supplier.

For other contract which does not qualify the conditions mentioned above, revenue is determined on gross basis.

Customers are billed based on contractually agreed frequency which is generally monthly or at the end of supply in case supply is for a part of the month and are given credit period on sale of power up to 90 days. Interest is charged at 15% to 18% per annum on the outstanding balance beyond the credit period.

ii. Rendering of Services

Revenue in the nature of advisory services rendered towards finalisation of power purchase agreements, load management etc. is recognised as determined under the terms of respective agreements. For sale of power under banking arrangements only margin earned on the transactions is accounted for as revenue.

iii. Delayed payment and compensation charges

Delayed payment charges for power supply on grounds of prudence are recognised when recovery is virtually certain.

Compensation recoverable from customers/suppliers for default in purchase/sale of power is accrued as determined under the terms of respective agreements and acknowledged by customers/suppliers.

iv. Dividend and Interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

| | For Year ended 31st March, 2020 ₹ Lakhs | For Year ended 31st March, 2019 ₹ Lakhs |

| | 6,074.73 | 6,509.75 |

23. The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation related disclosures for contracts as the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date.

24. Disaggregation of Revenue

The Company has a single stream of revenue i.e. sale of power. Revenue from Contracts with Customers reconciliation has been given as under.

26. Employee Benefits Expense

a. Defined contribution plans

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

b. Defined benefits plans

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method. Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income (OCI) in the period in which they occur. Remeasurements are not reclassified to statement of profit and loss in subsequent periods. Past service costs are recognised in statement of profit and loss on the earlier of:

- the date of the plan amendment or curtailment, and
- the date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- net interest expense or income.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

The cost of the defined benefit gratuity plan and other post-employment medical benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of current employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other non-current employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

| | For Year ended 31st March, 2020 | For Year ended 31st March, 2019 |
|--------------------------------|------------------------------------|------------------------------------|
| | ₹ Lakhs | ₹ Lakhs |
| Salaries and Wages | 758.00 | 960.56 |

| Staff Welfare Expenses | 93.34 | 99.49 |
| | 915.26 | 1,100.33 |

27. Finance Costs

Accounting Policy

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in statement of profit and loss in the period in which they are incurred.

| | For Year ended 31st March, 2020 | For Year ended 31st March, 2019 |

| Brand Equity Expenses | 70.00 | 341.00 |
| Amortisation of Advance Towards Leasehold Land | - | 0.40 |
| Legal Charges | 49.95 | 52.20 |
| Corporate Social Responsibility Expenses | 60.00 | 42.99 |
| Bad debts | 110.92 | 14.31 |
| Rates and taxes | 108.28 | 0.36 |
| Miscellaneous Expenses | 177.53 | 166.85 |
| Total | 1,468.72 | 1,478.75 |
| Note: | | |
| Payment to Statutory Auditors comprise (inclusive of GST) | | |
| - For Statutory audit & limited review | 13.55 | 13.55 |
| - For Tax audit | 2.12 | 2.12 |
| - For Other services | 4.60 | 4.25 |
| - For Reimbursement of expenses | 2.95 | 1.60 |
| Total | 23.22 | 21.52 |

29. Income taxes

Accounting Policy

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the respective subsidiary companies operates and generates taxable income.

Current income tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

| | For Year ended 31st March, 2020 | For Year ended 31st March, 2019 |
|----------------------------------|------------------------------------|------------------------------------|
| | ₹ Lakhs | ₹ Lakhs |
| Current tax | | |
| In respect of the current year | 1284.00 | 2044.66 |
| In respect of the previous years | 15.56 | 10.22 |
| | 1,299.56 | 2,054.88 |
| Deferred tax | | |
| In respect of the current year | (350.87) | (16.61) |
| Total Deferred tax expense | (350.87) | (16.61) |
| Total income tax expense | 948.69 | 2,038.27 |

29.1 The income tax expense for the year can be reconciled to the accounting profit as follows:

| | For Year ended 31st March, 2020 | For Year ended 31st March, 2019 |
|--|------------------------------------|------------------------------------|
| | ₹ Lakhs | ₹ Lakhs |
| Profit before tax | 5,019.93 | 5,728.03 |
| Income tax expense calculated at 25.17% (2018-19: 34.944%) | 1,263.52 | 2,001.60 |
| Effect of expenses that are not deductible in determining taxable profit | 2.92 | 18.28 |
| Effect related to adjustment for previous years | 3.24 | 10.22 |
| Effect of items not reclassified to profit & loss account | 5.40 | 8.17 |
| Remeasurement of deferred tax on account of new tax regime | (326.39) | - |
| | 948.69 | 2,038.27 |

The tax rate used for the years 2019-2020 and 2018-19 reconciliations above is the corporate tax rate payable by corporate entities in India on taxable profits under the Indian income tax law.

29.2 Income tax recognised in other comprehensive income

| | For Year ended 31st March, 2020 | For Year ended 31st March, 2019 |
|--|------------------------------------|------------------------------------|
| | ₹ Lakhs | ₹ Lakhs |
| Deferred tax | | |
| Remeasurements of defined benefit obligation | 5.40 | 8.17 |
| Total income tax recognised in other comprehensive income | 5.40 | 8.17 |
| Bifurcation of the income tax recognised in other comprehensive income into: | | |
| - Item that will not be reclassified to profit or loss | 5.40 | 8.17 |

30. Earnings per share

Accounting Policy

i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- The profit attributable to owners of the group
- By the weighted average number of equity shares outstanding during the financial year, adjusted for bonus element in equity shares issued during the year and excluding treasury shares.

ii) Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- The after income tax effect of interest and other financing costs associated with dilutive potential equity shares; and
- The weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

| | For Year ended 31st March, 2020 | For Year ended 31st March, 2019 |
|---|------------------------------------|------------------------------------|
| Basic and Diluted earnings per share | 25.45 | 23.06 |
| The financial statements have been prepared on a historical cost basis, except for certain financial assets & financial liability measured at fair value. The earnings and weighted average number of equity shares used in the calculation of basic/diluted earnings per share are as follows: | | |
| | For Year ended 31st March, 2020 | For Year ended 31st March, 2019 |
| | ₹ Lakhs | ₹ Lakhs |
| Profit for the year attributable to owners of the company | 4,071.24 | 3,689.76 |
| Earnings used in the calculation of basic/ diluted earnings per share (Rs. in Lacs) | 4,071.24 | 3,689.76 |
| | For Year ended 31st March, 2020 | For Year ended 31st March, 2019 |
| Weighted average number of equity shares for the purposes of basic/ diluted earnings per share. | 1,60,00,000 | 1,60,00,000 |
| Note: There are no potential equity shares which are anti-dilutive. | | |

31. Segment information

The Company is mainly engaged in the business of trading of electricity in India. Based on the information reported to the chief operating decision maker (CODM) for the purpose of resource allocation and assessment of performance, there are no reportable segments in accordance with the requirements of Indian Accounting Standard 108-'Operating Segment Reporting', notified under the Companies (Indian Accounting Standards) Rules, 2015.

| | 44,952.43 | 38,268.33 | 44,952.43 | 38,268.33 |

* Includes current maturities of non-current borrowings and interest accrued but not due on borrowing

The management assessed that cash and cash equivalents, other balances with bank, trade receivables, unbilled revenues, trade payables, other financial assets and liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties. The following methods and assumptions were used to estimate the fair values.

- Considering the sustained losses in the companies in which the investment is held, fair value of the unquoted equity shares have been estimated using a Adjusted Net Asset Value Method. The valuation requires management to make certain assumptions about the model inputs, including realizable value of assets. The probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for those unquoted investments.

- The cost of certain unquoted investments approximate their fair value because there is a wide range of possible fair value measurements and the cost represents the best estimate of fair value within that range.

The significant unobservable input used in the fair value measurement categorized within Level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 31st March 2020 and 31st March 2019 are as shown below:

Description of significant unobservable inputs to valuation:

| | Valuation techniques | | | Significant unobservable inputs | Range (weighted average) | Sensitivity of the input to fair value |
|--|------------------------|--|--|---------------------------------|--------------------------|--|
| FVTPL assets in unquoted equity shares of Power Exchange India Limited | Net Asset Value Method | | | None | N.A | - |

33.2 Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. This includes mutual funds that have quoted price.
- Level 2 Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This includes and investment in redeemable non-cumulative preference shares and equity shares.
- Level 3 Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data. This includes unquoted equity shares.

Tata Power Trading Company Limited
Notes forming part of financial statements

The following table summarizes financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosures are required) :

| | | Fair value hierarchy as at 31st March, 2020 | | | |
|---|-------------------|---|---|---|-----------------|
| | Date of valuation | Quoted prices in active markets (Level 1) | Significant observable inputs (Level 2) | Significant unobservable inputs (Level 3) | Total |
| Asset measured at fair value | | | | | |
| FVTPL financial investments | | | | | |
| Investment in equity shares of Power Exchange India Limited | 31st March, 2020 | - | - | - | - |

| Total | | - | 3,143.56 | - | 3,143.56 |

33.3 Capital Management & Gearing Ratio

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximize the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. From time to time, the Company reviews its policy related to dividend payment to shareholders, return capital to shareholders or fresh issue of shares. The Company monitors capital using gearing ratio, which is net debt divided by total capital plus net debt. The Company's policy is to keep the gearing ratio up to 60%. The Company includes within net debt, interest bearing loans and borrowings, less cash and cash equivalents.

The Company's capital management is intended to create value for shareholders by facilitating the meeting of its long-term and short-term goals. Its Capital structure consists of net debt (borrowings as detailed in notes below) and total equity.

Gearing ratio

The gearing ratio at the end of the reporting period was as follows:

| | ₹ Lakhs | |
|---|------------------|------------------|
| | 31st March, 2020 | 31st March, 2019 |
| Debt (i) | 2,862.24 | 17,409.57 |
| Less: Cash and Bank balances | 2,016.73 | 8.24 |
| Net debt | 845.51 | 17,401.33 |
| Total Capital (ii) | 23,251.04 | 19,195.86 |
| Capital and net debt | 24,096.55 | 36,597.19 |
| Net debt to Total Capital plus net debt ratio (%) | 3.51 | 47.55 |

- (i) Debt is defined as long-term borrowings (including current maturities) and short-term borrowings.
(ii) Equity is defined as Equity share capital and other equity including reserves and surplus.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

Tata Power Trading Company Limited
Notes forming part of financial statements

The Company has been monitoring Net debt to Total Capital plus net debt ratio during the year as against Net debt to equity ratio monitored in the previous year. However, there is no change in the overall objectives, policies or processes for managing capital during the years ended 31st March 2020 and 31st March 2019.

33.4 Financial risk management objectives and policies

The Company's principal financial liabilities, comprise borrowings, trade and other payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, cash and cash equivalents, other bank balances, unbilled receivables and other financial assets that derive directly from its operations. The Company also holds FVTPL investments.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by a risk committee that reviews the financial risks and the appropriate financial risk governance framework for the Company. The Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. It is the Company's policy that no trading in derivatives for speculative purposes may be undertaken.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of two types of risk: interest rate risk, price risk. Financial instruments affected by market risk include loans and borrowings.

The sensitivity analyses in the following sections relate to the position as at 31st March, 2020 and 31st March, 2019.

The sensitivity analyses have been prepared on the basis that the amount of net debt as at 31st March, 2020. The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations; provisions; and the non-financial assets.

Interest rate risk management

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company exposure to the risk of changes in market interest rates relates primarily to the Company long-term debt obligations with floating interest rates.

Interest rate sensitivity:

The sensitivity analysis below have been determined based on exposure to interest rates for term loans at the end of the reporting period and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period in case of term loans that have floating rates.

If the interest rates had been 50 basis points higher or lower and all the other variables were held constant, the effect on Interest expense for the respective financial years and consequent effect on Company's profit in that financial year would have been as below:

| | | ₹ Lakhs | |
|-----------------------------|-----------------|------------------------|-----------------|
| As of 31st March, 2020 | | As of 31st March, 2019 | |
| 50 bps increase | 50 bps decrease | 50 bps increase | 50 bps decrease |
| Interest expense on loan | 14.31 (14.31) | 15.72 (15.72) | |
| Effect on profit before tax | (14.31) 14.31 | (15.72) 15.72 | |

Credit risk management

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables). Credit exposure is controlled by counter party limits for major counter parties that are reviewed and approved by the Management regularly. Ongoing credit evaluation is performed based on the financial condition of receivables and the collaterals are held as security in some of the cases. The Company generally deals with parties which has good credit rating/ worthiness given by external rating agencies or based on Company's internal assessment as listed below:

| | 31st March, 2020 | 31st March, 2019 |
|--|------------------|------------------|
| Trade receivables | 54,528.16 | 56,608.78 |
| Other Current & Non Current financial assets | 1,327.59 | 1,193.64 |
| Total | 55,855.75 | 57,802.42 |

Refer Note 7 for credit risk and other information in respect of trade receivables. Other receivables as stated above are due from the parties under normal course of the business and as such the Company believes exposure to credit risk to be minimal.

Tata Power Trading Company Limited
Notes forming part of financial statements

Liquidity risk management

The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. The Company has access to a sufficient variety of sources of funding. Having regards to the nature of the business wherein the Company is able to generate fixed cash flows over a period of time and to optimize the cost of funding.

| | Up to 1 year | 1 to 5 years | 5+ years | Total | ₹ Lakhs Carrying Amount |
